OBJECTIVE

Innovative, Talented and Cooperative .Net - Angular Full-Stack Web Developer looking for challenging work where I can apply my knowledge of software development and web applications while being a communicative, supportive team player who presents effective ideas with the ability to offer advice to others.

WORK EXPERIENCE

- Jr. Software Developer | Smart Up IT Services | Cairo, Egypt.   July 2023 – Present

Responsibilities:
- Add features to existing apps and maintain it using Blazor, WPF, SQL and .NET (API / MVC / ADO).
- Upgrading, configuring and debugging existing systems.
- Providing technical support for web and desktop applications.

TECHNICAL SKILLS

- C#	- Angular	- ASP.NET Core MVC
- C++	- Blazor	- ASP.NET Core Web API
- LINQ	- HTML5	- ADO.Net
- Entity Frame work Core	- CSS3	- SQL
- Windows form(C#)	- JavaScript	- GitHub / Jira
- Radzan	- Bootstrap	- SOLID
- Syncfusion	- Typescript	- Data structure / Algorithms

PROJECTS

- E-Commerce Web Application (ITI Graduation Project) 🔗
  Developed a robust e-commerce platform utilizing .NET Web API and Angular, delivering seamless online shopping experiences. Integrated RESTful APIs to handle data retrieval and manipulation, ensuring efficient communication between the frontend and backend.
  Features: User Authentication, Authorization, Update Profile, Reset Password, Wish List, Shopping Cart, Check-out, Filter Products, and Product Details. The Admin Dashboard includes CRUD operations for users, products, adding sub-categories, and confirming deliveries.
  Using: .NET Core Web API, Entity Framework Core, LINQ, SQL Server Database, JWT, HTML, CSS, Bootstrap, TypeScript and Angular.

- Students Management System 🔗
  Developed a CRUD system using Angular, Bootstrap and HTML that provides basic operations for managing data in a database. CRUD stands for Create, Read, Update, and Delete, which are the fundamental operations used to interact with persistent data and typically provides an interface or API that allows users to perform these operations on the data stored in a database.
